PROFILE

UC Berkeley student entering their fourth year, studies of Data Science, skills in Java, Python, R, SQL and hobbies in Hiking, Basketball, Waterpolo. I am a motivated and proactive individual with a strong interest in the field of data science and its applications. I have developed strong analytical and problem-solving skills through my studies and work experience. I am also proficient in programming languages such as ones mentioned above and libraries like Pandas, Seaborn, Matlibplot, and Sklearn. My experience includes work on Java projects to Python based analysis.
